### **DETAILED ACTION**

This office action is responsive to supplemental response filed on 1/22/09.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

In claim 3, (after "The method of Claim 1, and before "said obtaining step"), delete "where in" and please enter – wherein --.

### ***Allowable Subject Matter***

The following is a statement of reasons for the indication of allowable subject matter:

Claims 1, 3~6, 8~11, and 13~20 (renumbered) are allowable based on Applicant's response filed on 1/22/09.

The prior art of record does not teach nor suggest a "method/terminal/server for sending e-mail with attachment files from a server apparatus to a communications terminal for the purposes of filtering desired/undesired attachment files, as claimed. More specifically, the prior art of record fails to teach, in combination with other claimed features, receiving an arrival notice from the server apparatus indicating that an e-mail is to be routed to the communication terminal, automatically generating, by the communication terminal, a request for the email destined for the communication terminal, the request including data indicating the type information stored in the

Art Unit: 2457

memory, the automatically generating being triggered by receipt of the arrival notice from the server apparatus.
